

Output for Implement Spring Security with Authentication:

Login Page:

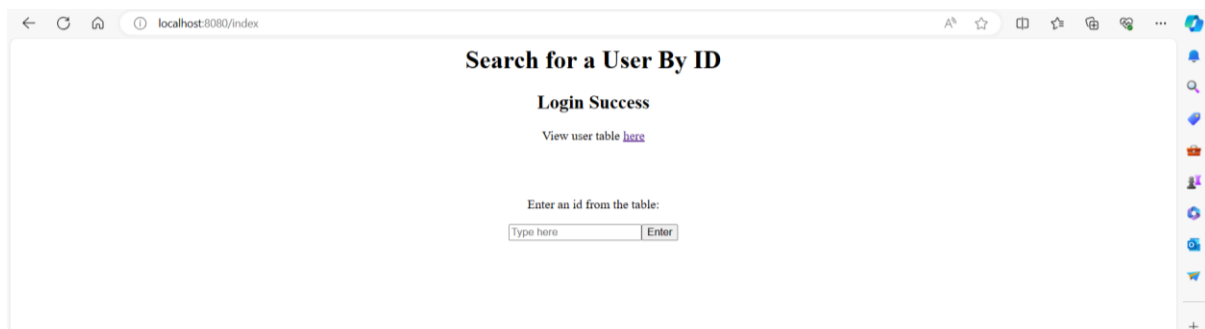

A screenshot of a web browser displaying the login page of a Spring Security application. The browser's address bar shows 'localhost:8080'. The page has a title 'Spring Security' and a subtitle 'Login below to access the user's table'. Below the subtitle, there are two input fields: 'Name' and 'Password', followed by an 'Enter' button. The browser's sidebar on the right shows various icons for navigation and settings.

After Entering Correct Details:

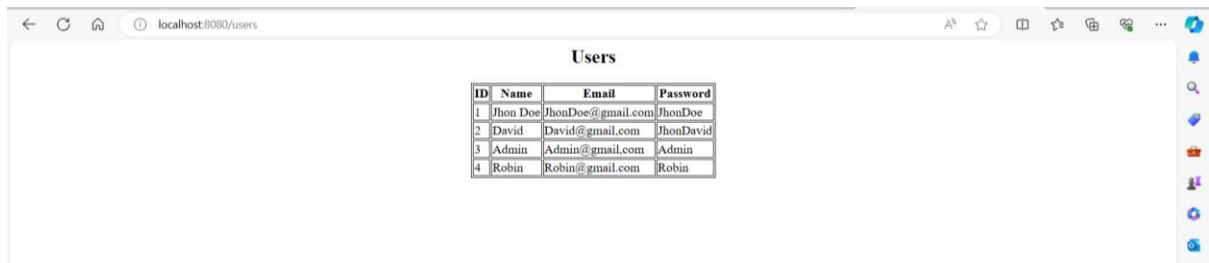

A screenshot of the same Spring Security login page, but with the 'Name' and 'Password' fields filled with the text 'Admin'. The 'Enter' button is still present. The browser's address bar shows 'localhost:8080'.

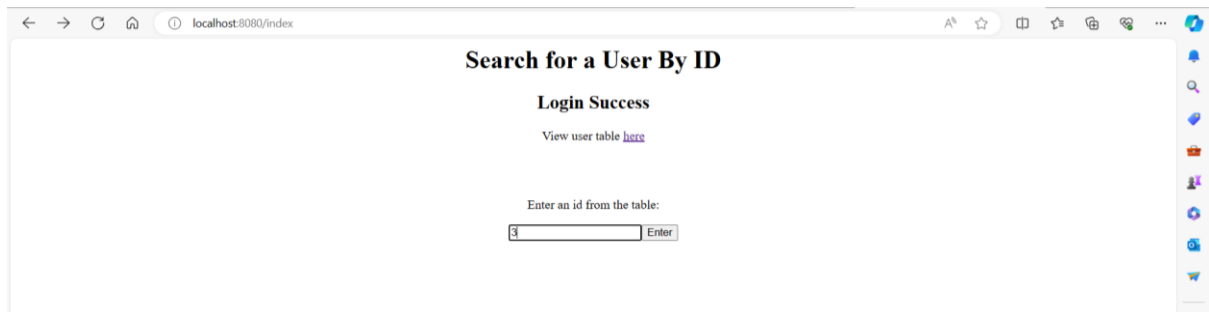

A screenshot of a web browser displaying a page titled 'Search for a User By ID'. The browser's address bar shows 'localhost:8080/index'. The page has a subtitle 'Login Success' and a link 'View user table [here](#)'. Below this, there is a text prompt 'Enter an id from the table:' followed by a 'Type here' input field and an 'Enter' button. The browser's sidebar on the right shows various icons for navigation and settings.

View User Table:

ID	Name	Email	Password
1	Jhon Doe	JhonDoe@gmail.com	JhonDoe
2	David	David@gmail.com	JhonDavid
3	Admin	Admin@gmail.com	Admin
4	Robin	Robin@gmail.com	Robin

Search by Id:

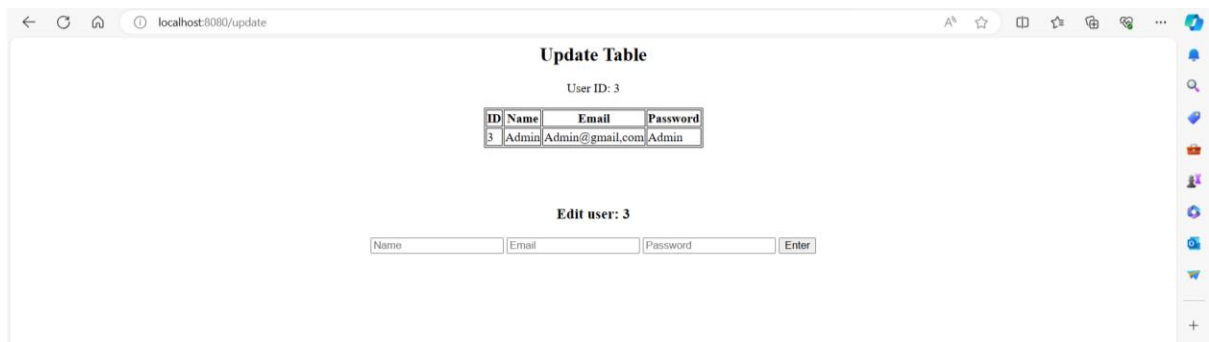

Search for a User By ID

Login Success

View user table [here](#)

Enter an id from the table:

Update Table

User ID: 3

ID	Name	Email	Password
3	Admin	Admin@gmail.com	Admin

Edit user: 3

After Entering Wrong Details:

Spring Security

Login below to access the user's table

It will redirect to index page:

The screenshot shows a web browser window with the address bar displaying "localhost:8080/index". The page content is centered and features the title "Spring Security" in a bold, black font. Below the title, a subtitle reads "Login below to access the user's table". Underneath this, there is a login form consisting of two text input fields: the first is labeled "Name" and the second is labeled "Password". To the right of the "Password" field is a button labeled "Enter". The browser's interface includes standard navigation buttons (back, forward, home) and a vertical toolbar on the right side with various icons for search, zoom, and other functions.
